INCE-USA
PAPER
COMPETITION

Deadline: March 1, 2017
INCE-USA is pleased to announce a Student Paper Competition for NOISE-CON 2017, with up to five awards given to the most outstanding papers. The Winners of the Student Paper Competition Awards will receive $500 USD plus an additional $500 award if they attend the NOISE-CON 2017 Awards Ceremony. If a winning paper is expanded and accepted after peer review for publication in the Noise Control Engineering Journal, the student will receive an additional $500 award.

For further instructions, email the INCE-USA Business Office at ibo@inceusa.org or visit the conference website: noisecon17.inceusa.org/program/students.cfm.

JOINT POSTER SESSION WITH SAE INTERNATIONAL

Deadline: Feb. 1, 2017
The purpose of this poster display is to explain, instruct, define, clarify, demonstrate and teach the many concepts and applications of noise and vibration engineering. Appropriate topics would include building acoustics, community noise, Automotive (including light and/or heavy duty vehicles), Aerospace, Rail and any additional areas of noise and vibration engineering. Of particular interest are the areas addressed by the technical sessions in either the SAE or INCE-CON events.

The poster session is limited to undergrad students. Prizes will be awarded for 1st, 2nd and 3rd place and presented at the Wednesday Awards Luncheon. More details and submission procedures online at sae.org/events/nvc.

JOINT YOUNG PROFESSIONALS PROGRAM WITH SAE INTERNATIONAL

This exciting program of activities for Young Professionals (YP) at the SAE/INCE-USA Conferences are each designed to inform, encourage and motivate the leaders of tomorrow. This initiative is designed to help YPs transition into the “real world”, while providing solid leadership principles that they can carry throughout their career. As technology continues to change and critical issues are being resolved, these skills are more important now more than ever.

These activities also provide the valuable opportunity to learn from and network with fellow YPs and executives from major corporations within their industry of interest.

Program Schedule
Student Breakfast:
Tuesday Morning
Student Continental Breakfast/Workshop:
Wednesday Morning
Speed Mentoring:
Wednesday Lunch

Watch for more details on the SAE/INCE-USA YP Program offerings online at sae.org/events/nvc and noisecon17.inceusa.org/index.cfm.

INCE-USA VOLUNTEERS NEEDED

Student volunteers are needed to provide assistance during NOISE-CON 2017 technical sessions and conference events. Volunteers will attend assigned sessions and make themselves available in the event that the session chair and/or technical staff need additional assistance. Volunteers will receive free registration to the conference and a NOISE-CON shirt. This will be an excellent networking opportunity. Sessions will be assigned to match student interests and availability. Schedule will allow for activities such as paper presentations.

Contact Dana Lodico for more information.
dlodico@illingworthrodkin.com

UNIVERSITY DISPLAYS — EXHIBIT FLOOR

Universities are invited to this informal collaboration to prepare and present via demonstrations and/or videos on the exhibit floor in your areas of current research. Booth displays are complimentary.

Interested participants should contact Megan McCoy at megan.mccoy@sae.org.
STUDENT ACTIVITIES

SAE PAPER COMPETITION

**Deadline: Oct. 14, 2016**
The SAE 2017 Noise and Vibration Conference and Exhibition will be hosting a Student Paper Competition. The competition is open to all currently-enrolled full-time graduate and undergraduate university students as well as those who have graduated from a university within the past six months.

To qualify, students must have a paper accepted as the main author (the author whose name is listed first on the paper) and must be the presenter of the paper at the SAE 2017 Noise and Vibration Conference in a standard SAE NVH technical paper presentation according to the regular rules of the technical sessions.

All Student Papers are peer reviewed by the NVH community. Because of these reviews, those that are published are more recognizable in search engines like Google Scholar giving them long term reference value within the Academic and OEM communities. Papers that are published are also eligible for SAE’s NVH Journal. Journals are SAE’s gold standard for written manuscripts.

Monetary prizes will be awarded for 1st, 2nd and 3rd place and presented at the Wednesday Awards Luncheon. 1st place winner will also receive a travel stipend.

Applicants are invited to submit their abstract of 300 words or less online at sae.org/events/nvc/cfp.
